MCHOSE

G75 /G75 Pro
MECHANICAL KEYBOARD

Warm Reminder: The product images shown are for illustrative purposes only; the actual product shall prevail.

PRODUCT OVERVIEW

Mode - switching Switch:
1.The top position [ ] is for 2.4G mode.
2.The middle position [ ] is for wired mode.
3.The bottom position [B] is for wireless mode.

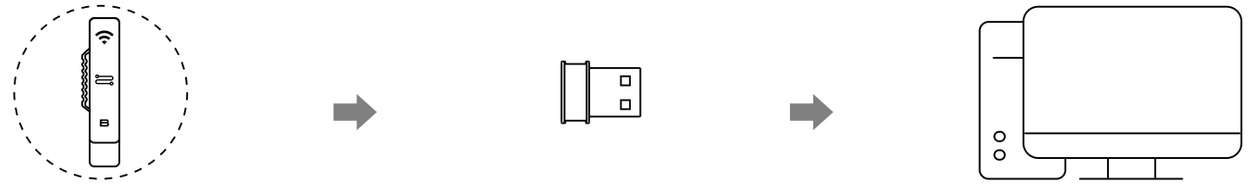

1. Indicator Lights
• CAPS Indicator Light: The CAPS key indicator light differentiates between uppercase and lowercase states. It remains on when in the uppercase state.
• Win Indicator Light: The Win key indicator light differentiates the locked state of the Win key. It stays on when the Win key is locked, and the Win key cannot be used at this time.

2. Windows / Mac Systems
• FN + A switches to the Windows system; FN + S switches to Mac mode. In Mac mode, the ALT key functions as the Command key, and FN + F1 - F12 enables normal input of F1 - F12.
• When switching from the Windows system to Mac system mode, the Windows key and the left Alt key will be swapped, and the F1 - F12 keys will function as multimedia keys.

CONNECTION MODE

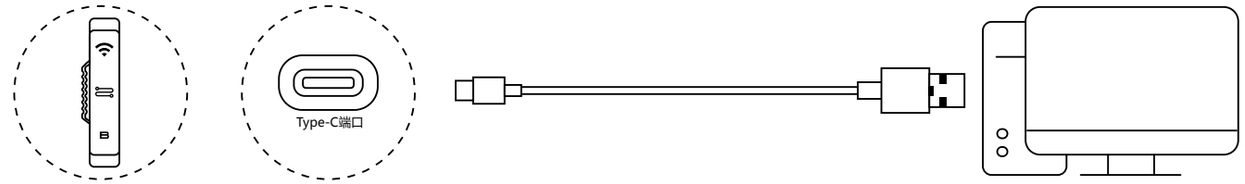

2.4G wireless connection:

- Slide the mode - switching switch to [ ].
- Take out the receiver from the storage slot.
- Insert the receiver into the computer's USB port.
- Manual pairing (factory - default paired):
  Long - press [FN+`~] until the indicator light flashes rapidly.
  Insert the receiver into the computer's USB port.
  When the connection is successful,
  the [`~] key will light up for 2 seconds.

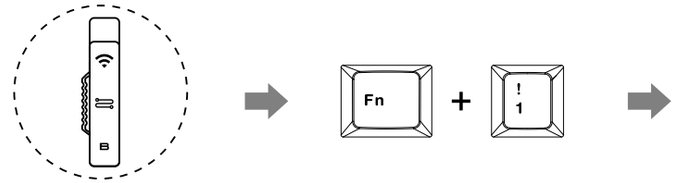

Wired connection:

- Slide the mode - switching switch to the [ ] mode.
- Plug one end of the Type - C USB cable into the corresponding port of the keyboard.
- Plug the other end of the USB cable into the corresponding port of the computer to start using it.

Wireless connection:

- Slide the mode - switching switch to the [B] mode.
- Long - press [FN + 1!] to start pairing. The indicator light will flash rapidly during pairing.
- Press [FN + 1!], [FN + 2@], [FN + 3#] to switch devices.

Pairing name :
【MCHOSE G75】/【MCHOSE G75 Pro】

POWER MANAGEMENT

1. Battery Check

In wireless mode (when the USB is not inserted),
hold FN + B to check the battery level.

2. Charging Method

- Connect the keyboard to the computer via the provided USB cable to charge the keyboard. When charging, the red light on the [ESC] key stays on. Once fully charged, it follows the current lighting effect.
- When the red light on the [ESC] key is flashing, please charge the keyboard in a timely manner.

3. Sleep Function

- In wireless/2.4G mode, if there is no operation for 1 minute, the keyboard automatically enters power - saving mode. Click any key to wake up the keyboard.

Note: This device has been tested and complies with the limits for Class B digital devices under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations.
This device generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation.
If this device does cause harmful interference to radio or television reception (which can be determined by turning the device off and on), we encourage the user to try one or more of the following measures to correct the interference:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the responsible party could void the user’ s authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

CHARGING INSTRUCTION

1.It is recommended to charge the keyboard only via the computer's USB port.
2.Do not use a fast - charging mobile phone charger to charge the keyboard.
3.Do not use substandard or non - compliant power adapters to charge the keyboard.
4.Do not use power adapters with over - voltage or over - current to charge the keyboard.
5.Keep away from high - temperature devices when charging.
6.Turn off the power switch when not in use for an extended period.

These charging instructions also apply to other rechargeable devices (keyboard/mouse/headphones/speakers, etc.).
