Note: This device has been tested and complies with the limits for Class B digital devices under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations.
This device generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation.
If this device does cause harmful interference to radio or television reception (which can be determined by turning the device off and on), we encourage the user to try one or more of the following measures to correct the interference:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the responsible party could void the user’ s authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

CHARGING INSTRUCTION

1.It is recommended to charge the headset only via a computer USB port.
2.Do not use power adapters with overvoltage or overcurrent to charge the headset.
3.Keep the headset away from high-temperature devices while charging.
4.Turn off the power switch when the headset is not in use for an extended period.
5.Do not use inferior or non-standard power adapters to charge the headset.

These charging instructions also apply to other rechargeable devices (keyboard/mouse/headphones/speakers, etc.).
