MCHOSE

Z75S MECHANICAL KEYBOARD

Warm Reminder: The product images shown are for illustrative purposes only; the actual product shall prevail.

PRODUCT OVERVIEW

1. Windows / Mac Systems

- FN + S = Windows system; FN + A = Mac mode. The ALT key functions as the Command key, and FN + F1 - F12 provides the regular input for F1 - F12.
- In the Windows system, when switching to Mac system mode, the Windows key and the left - hand ALT key will be swapped, and F1 - F12 will function as multimedia keys.

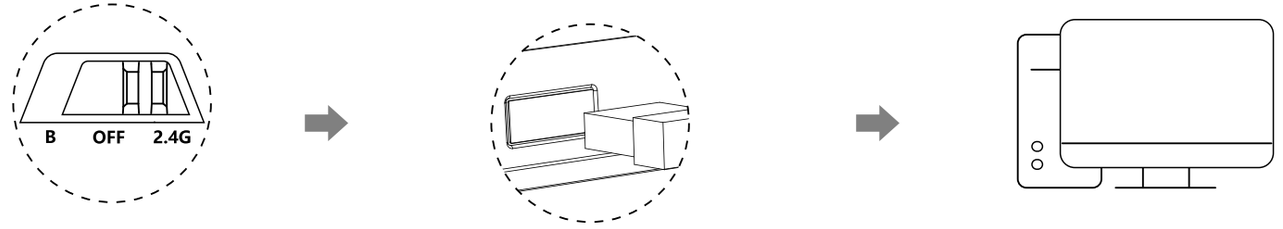

2. Indicators

- WIN Indicator: The WIN key indicator differentiates the locked state of the WIN key. It stays on when the WIN key is locked, and the WIN key cannot be used at this time.

CONNECTION MODE

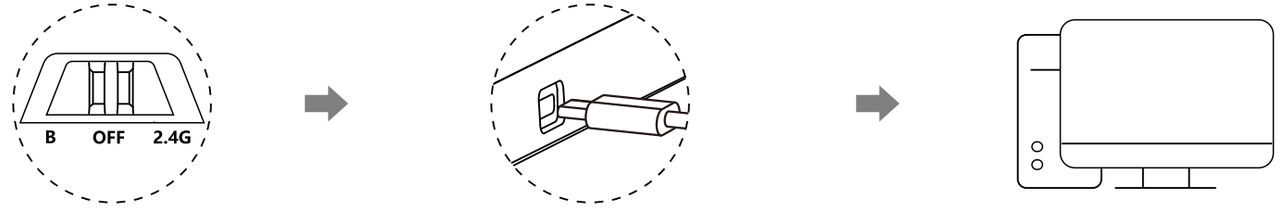

2.4G Connection:

- Slide the mode switch to [2.4G].
- Take out the receiver from the storage slot.
- Insert the receiver into the USB port of your computer.
- Manual pairing (factory - default paired): Long - press [FN + Q] for 3 seconds until the indicator light flashes rapidly.
  Insert the receiver into the computer's USB port.
  When the connection is successful,
  the backlight effect will be restored.

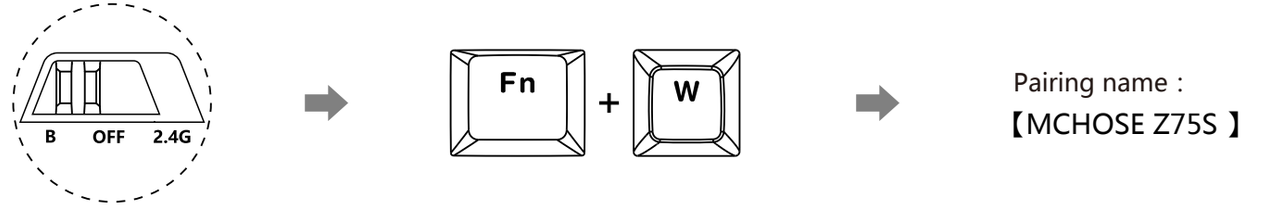

Wired Connection:

- Slide the mode switch to the [OFF] mode.
- Insert one end of the Type - C USB cable into the corresponding port of the keyboard.
- Insert the USB end of the cable into the corresponding port of the computer to start using it.

Wireless Connection:

- Slide the mode switch to the [B] mode.
- Long - press [FN + W] to start pairing. The indicator light will flash rapidly during pairing.
- Press [FN + W], [FN + E], [FN + R] to switch devices.

Pairing name :
【MCHOSE Z75S 】

POWER MANAGEMENT

1. Battery Check

- In 2.4G/wireless mode (when the USB is not inserted), you can press FN + B to display the keyboard battery level.
- When fully charged, the number keys 1 - 0 will all show green lights. As the battery drains, the green lights gradually decrease, and when the battery is low, red lights will turn on.

Status Indicator Light

2. Charging Method

- In any mode, connecting the keyboard to a computer via the provided data cable will charge the keyboard.
- During charging, press FN + Left Shift to switch to the charging display status. The charging status is indicated by a red light, and a green light indicates a full charge.

3. Sleep Function

- In wireless/2.4G mode, the keyboard automatically enters power - saving mode after one minute of inactivity. Click any key to wake it up.

Note: This device has been tested and complies with the limits for Class B digital devices under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations.
This device generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation.
If this device does cause harmful interference to radio or television reception (which can be determined by turning the device off and on), we encourage the user to try one or more of the following measures to correct the interference:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the responsible party could void the user’ s authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

CHARGING INSTRUCTION

1.It is recommended to charge the keyboard only via the computer's USB port.
2.Do not use a fast - charging mobile phone charger to charge the keyboard.
3.Do not use substandard or non - compliant power adapters to charge the keyboard.
4.Do not use power adapters with over - voltage or over - current to charge the keyboard.
5.Keep away from high - temperature devices when charging.
6.Turn off the power switch when not in use for an extended period.

These charging instructions also apply to other rechargeable devices (keyboard/mouse/headphones/speakers, etc.).
