■ CONNECTION METHODS

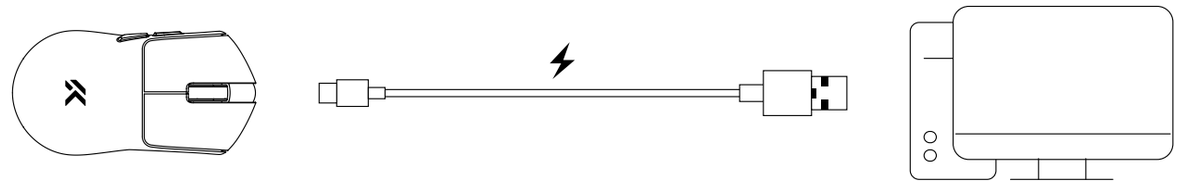

2.4G Connection

Connection Method 1 (Recommended): Plug the included data cable into your computer's USB 2.0/3.0 port ①. Insert the Type-C end of the data cable into the Type-C port ② of the adapter. Plug the receiver ③ into the USB-A port of the adapter for use. Place the adapter with the receiver plugged in on your desktop, and keep the distance between the receiver and the mouse within 30 cm.
Connection Method 2: Plug the receiver ③ directly into your computer's USB 2.0/3.0 port ① for use.

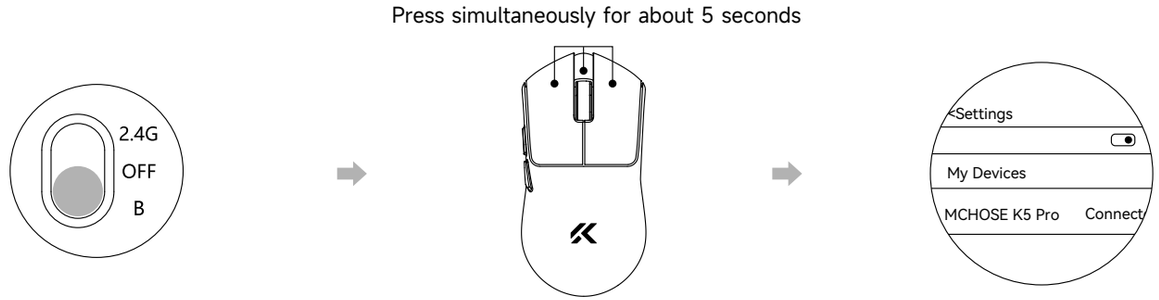

Charging / Wired Connection

Insert the Type-C end of the included USB cable into the matching port on the mouse, and plug the USB-A end into a corresponding port on your computer to start using.
The mouse will automatically switch to wired mode once the USB cable is connected, and charging will begin simultaneously.

Wireless Connection

Slide the switch to position [B], then search and connect to the device named [MCHOSE K5 Pro]. If pairing fails, press and hold the Left + Middle + Right mouse buttons simultaneously for about 5 seconds until the indicator light flashes rapidly to enter pairing mode, then reconnect. The indicator will turn off once the connection is established.
Pairing name for K5 Pro: [MCHOSE K5 Pro]
Pairing name for K5 Ultra: [MCHOSE K5 Ultra]

■ DRIVER INTRODUCTION

M HUB Web： https://www.mchose.com.cn

■ BATTERY STATUS INDICATOR

Red light flashing rapidly:
Low battery.

Red light constantly on:
Charging.

Green light constantly on:
Charging completed.

Note: This device has been tested and complies with the limits for Class B digital devices under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations.
This device generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception (which can be determined by turning the device off and on), we encourage the user to try one or more of the following measures to correct the interference:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the responsible party could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

CHARGING INSTRUCTION

1. It is recommended to charge the mouse only via a computer USB port.
2. Avoid using substandard or non-compliant power adapters to charge the mouse.
3. Avoid using over-voltage or over-current power adapters for charging.
4. Keep the mouse away from high-temperature devices while charging.
5. Please turn off the power switch if the device will not be used for an extended period.

These charging instructions also apply to other rechargeable devices (keyboard/mouse/headphones/speakers, etc.).
